

## Bulkbag carrier | BBE.RVS | 2.000 kg

- Manufactured from high-quality stainless steel for optimal corrosion protection, suitable for demanding environments.
- Robust construction ensures durability, making the stainless steel Bulk Bag Lifting Bar a long-lasting and reliable investment.
- Designed with a safe working load of 2000 kg, making it reliable for lifting heavy Bulk bags containing various materials. Specially designed lifting equalizer for efficient and safe lifting of Bulk bags, including sandbags and construction materials.
- With dimensions of 800 mm x 800 mm, it offers a convenient and space-saving solution for handling large quantities of materials.
- When installed, maintained and used, in accordance with the operating instructions and the rules of good workmanship, complies with the basic health and safety requirements of the European Machinery Directive: EU Machine Directive 2006/42 /EC Annex II, 1A

Type	BBE.RVS
