GRILLON HOOK European Version

The GRILLON HOOK adjustable lanyard is used to make work-positioning systems to complement a fall-arrest system. The length can be very easily and precisely adjusted as needed for comfortable positioning at the workstation. Its HOOK connector is ideal for using the lanyard in double mode on the harness side attachment points. The GRILLON HOOK is available in four lengths (2, 3, 4 and 5 m) and is certified to European and Russian standards.

The GRILLON HOOK lanyard is equipped with a HOOK connector, ideal for connections using the harness side attachment points.

Extend the usable life of your GRILLON HOOK adjustable lanyard with replacement rope, screw, and protective sheath available as spare parts.

Short Description	Adjustable work-positioning lanyard with HOOK connector
-------------------	---

Selling Points	• Easy to use: - Fine adjustment system allows length to be precisely adjusted for comfortable positioning at a workstation - Double mode is used (on the harness side attachment points) when the user is working with weight on their feet, providing improved load distribution on the waistbelt; length is adjusted by pressing on the pivoting cam • Sewn terminations on both ends with plastic sheath to keep the connector in position and protect the rope from abrasion • Protective sheath protects the rope from abrasive surfaces while enhancing rope glide • Comes with HOOK connector, ideal for use in double mode on the harness side attachment points • Available in four lengths: 2, 3, 4 and 5 m. Lanyard length is immediately identified by a color-coded label at the connector end • User-repairable, the GRILLON HOOK has available spare parts to help extend its usable life
